DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention: Presently claimed invention is drawn to a method of preparing a homogeneous slow release organic-based fertilizer comprising components A, B, and C which encompass hundreds of ingredients.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-20 are generic. Applicant must elect as elected species a composition containing components A, B, and C.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Application/Control Number: 09/872,150 Page 3

Art Unit: 1616

Should applicant traverse on the ground that the species are not

patentably distinct, applicant should submit evidence or identify such evidence

now of record showing the species to be obvious variants or clearly admit on

the record that this is the case. In either instance, if the examiner finds one of

the inventions unpatentable over the prior art, the evidence or admission may

be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete

must include an election of the invention to be examined even though the

requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications

from the examiner should be directed to Sabiha Naim Qazi whose telephone

number is 703-305-3910.

If attempts to reach the examiner by telephone are unsuccessful, the

examiner's supervisor, Jose Dees can be reached on 703-308-4628. The fax

phone numbers for the organization where this application or proceeding is

assigned are 703-308-4556 for regular communications and 703-308-4556 for

After Final communications.

Any inquiry of a general nature or relating to the status of this

application or proceeding should be directed to the receptionist whose

telephone number is 703-308-1235.
